50000&1
SEAPs

@ 50001SEAPS

The **5000&1 SEAPs** project provides a coherent approach to integrating Energy Management Systems (EnMS) with Sustainable Energy Action Plans (SEAPs) according to energy management standards such as ISO50001 and European Energy Award as quality management certification system for municipalities committed to sustainable energy planning. It aims to help municipalities overcome the barriers blocking institutionalisation of their action plans and reinforce internal structures and procedures for high-quality, long-term, energy policy and planning.
